

Mobile Banking: Mobile Deposit

Making a deposit with our mobile app is quick and secure.

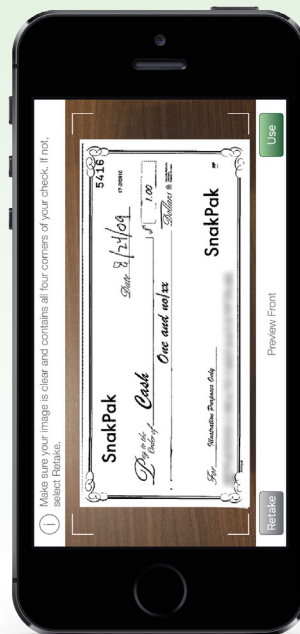

From deposit, you can deposit your paper check just like you would at an ATM or branch.

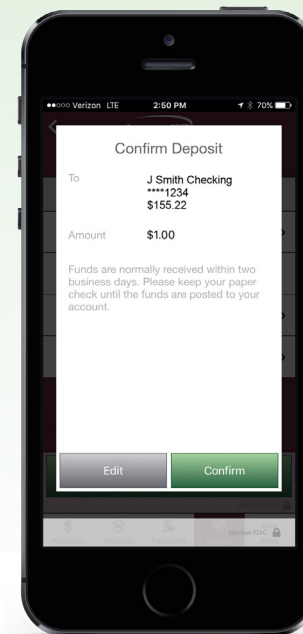

To deposit a check, begin by endorsing the back of the check and writing "For Mobile Deposit Only" under your signature. Within the app, select "Deposit Check." Choose the account to make the deposit and enter the amount.

Take a photo of the front of the check, ensuring the entire check is visible, in focus and well lit. If clear, accept it. Repeat this process for the back of the check. Once both images have been captured, continue to review your deposit and click "confirm".

You can check the status of your deposit at any time. Statuses include pending, failed and those that have been accepted and posted.

Tip: Write a note on the original document that reads "scanned" and the date you deposited the check. Keep the scanned check for 7-45 days and until you have reviewed your bank statement before safely destroying the check.
